SUMMARY

Cybersecurity master's student pursuing an entry level role in security operation/blue team, with hands-on experience with Wazuh. Currently working towards CompTIA Security+.

Technical Skills

- SIEM and Monitoring: Wazuh, learning Splunk
- Networking: Network Architecture and protocols, Subnetting, CIDR, Traffic Analysis, Redundancy design, Network Security
- Languages/Tools: Python, SQL, CLI, Linux Administration, Suricata, EDR, TCP Dump, OWASP
- Knowledge: Log Analysis, Alert Triage, Incident Response, MITRE ATT&CK

Projects

- **AI Powered SOC Assistant-** An AI layers built on top of traditional SIEM that helps with triaging.
    - An SLM that runs locally, reads alerts, understands the context behind those alerts not just match them with rules and gives summary of incidents.
    - Some of the tools used are RAG and MITRE ATT&CK techniques.
- **Self-Hosted Home Server-** Used an old dell optiplex to host my own streaming library.
    - Installed ubuntu and configured jellyfin to stream movies in local network
    - Later configured tailscale vpn to stream movies outside the local network.
- **Personality Prediction-** Made a personality prediction software for assisting interviews of potential employees.
    - Uses CNN and NLP to extract features and speech patterns to predict personality according to the OCEAN personality model.
    - Used SQLite for storing users/session data.
- **Drowsiness Detection-** Made a software that detects the movement of face muscles and face expressions to monitor if driver is about to pass out
    - Uses Haar cascade detection for detecting face and eyes. CNN is used for eye state classification along with EAR based blink tracking.
- **Simple File Organizer-** Used OS library to build a file organizer to arrange documents in my folders.

EDUCATION

- **Master's in Computer Forensics and** Cybersecurity **Sep 2025 – Aug 2026**

  University of Greenwich

- **Bachelor's in Computer Science** **Apr 2021 – June 2025**

  Sinhgad Academy of Engineering

CERTIFICATIONS

- **Google Cybersecurity Certification**
- **Comp TIA Security + (in progress)**
